

Business Computer Project

You're setting up a business! When setting up, you need to type out your plan, then create an advertisement. Finally, you need to create plans in Excel to demonstrate your business success. Ready? Let's get started!

Step 1: Create an advertisement. Use Microsoft Word. Your ad needs to say your business name, your business slogan, and maybe a small description of your business too. Don't forget pictures!

Step 2: Type up a sheet explaining your business. Include the following:

- Who is on the team?
- What business is your company in?
- Why did you choose it?
- Who are you?
- What is your business?
- Why is it important?
- Why is your business better than others?
- What is your competition?
- Where is your business?
- Why should people visit or buy from your business
- Slogan?

Step 3: Using the information below create graph explaining the first year of your business.

<u>Month</u>	<u>Expenses</u>	<u>Number Sold</u>	<u>Profits</u>
1	\$503.19	115	127.98
2	\$540.10	37	836.00
3	\$163.98	35	346.43
4	\$357.51	175	334.00
5	\$606.64	104	567.88
6	\$394.72	2	18.98
7	\$543.93	99	999.23
8	\$337.88	183	1354.75
9	\$543.47	47	456.78
10	\$602.82	127	214.09
11	\$571.31	179	2354.54
12	\$535.69	19	134.53

Step 4: Using the information above, create a table explaining your profits and losses in your first year of business
